Introduction

Our clients range from private residential owners to property managers, body corporates, and industrial clients, all **Evoltz** Electrical's work is guaranteed.

Our team undertakes the full range of new grid-tied, hybrid, and off-grid solar installations, battery backup installations, electrical installations, certificates of compliance, repairs, and fault-finding.

Our experienced team of qualified tradespeople strive to deliver the best workmanship at competitive prices.

We pride ourselves on quick action, with no long waiting periods for our electrical services, with 24/7 availability for those unseen disasters.

From quote to completion, each job is carefully overseen. Clients are provided with regular reports.

YOU NAME IT, WE DO IT!

Description of Business

Our experience has allowed us to put together tailored packages based on our clients' needs; we'll be more than happy to customize a package just for you.

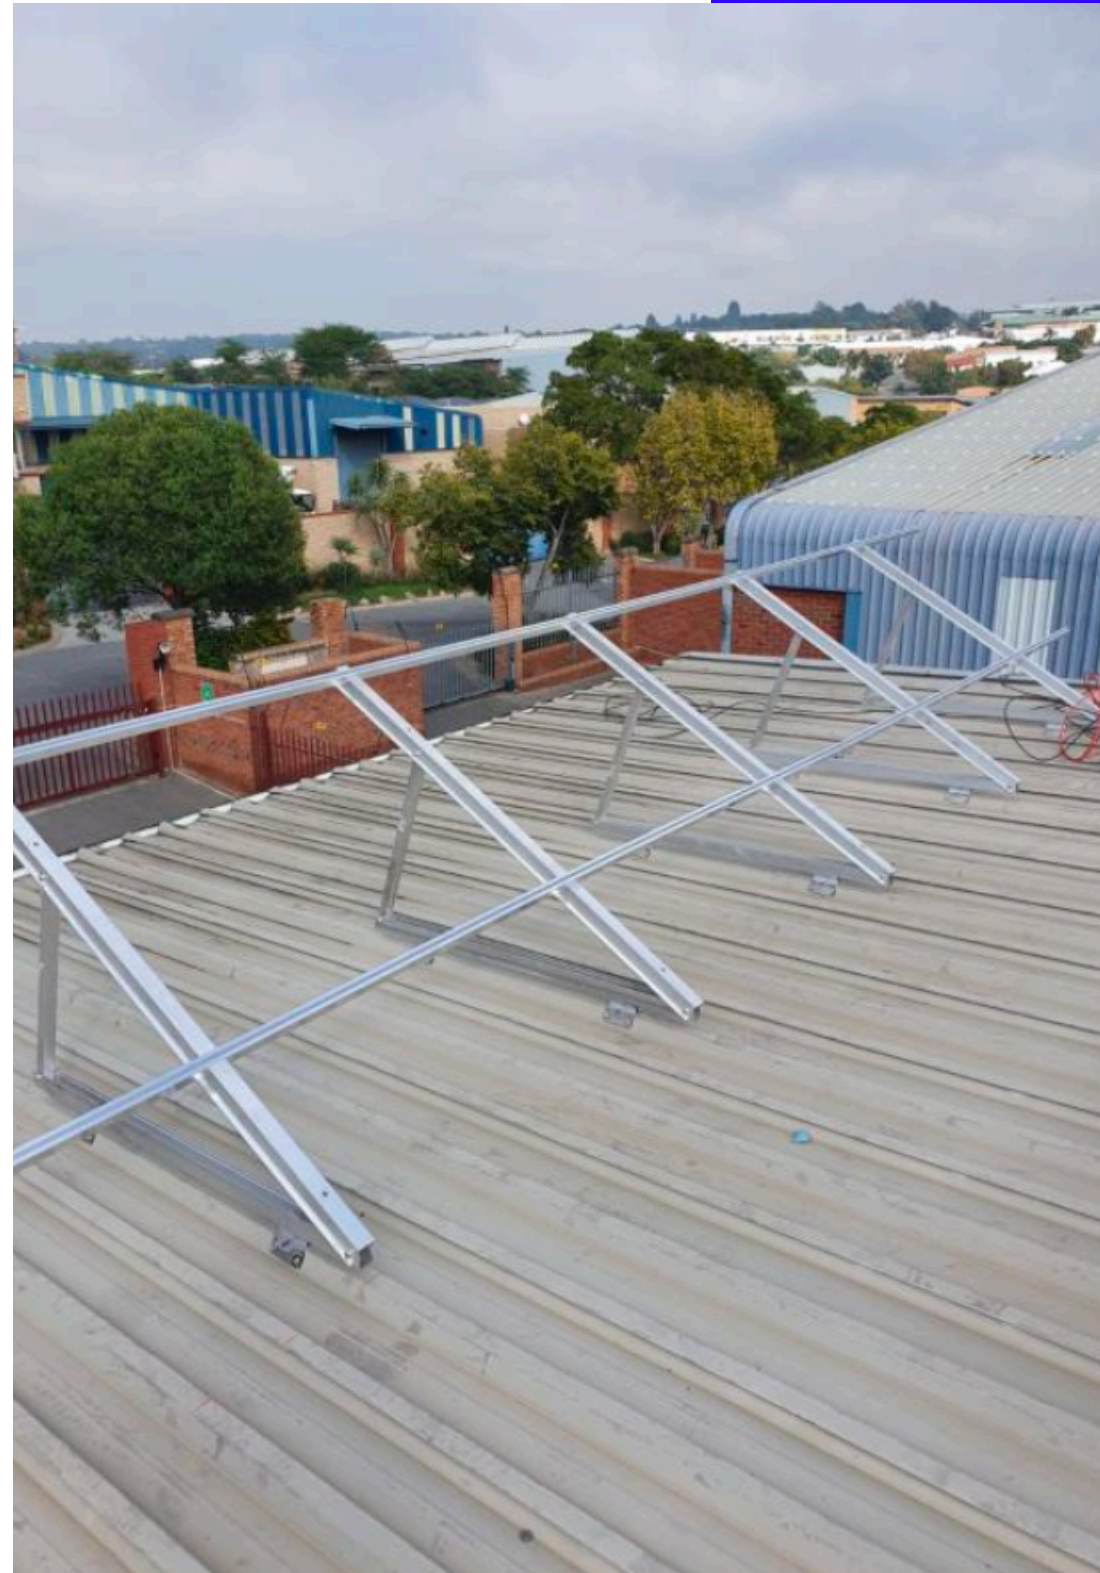

From doing up the kitchen or living room to a new extension or complete new look for your home, we can take care of all your electrical needs.
